B2C Refund Policy

International & NRI Customers • Website-ready policy

Company	Wisdatree Private Limited	**Effective date**	[DD/MM/YYYY]
Applies to	B2C learners / parents / guardians	**Version**	1.0

1. Purpose and scope

This Policy explains how Wisdatree manages cancellations, refunds, programme credits, duplicate or excess payments and payment disputes for B2C customers, including NRI and international customers. Wisdatree aims to provide a fair resolution while, wherever reasonably possible, helping customers continue or use the value already paid. This Policy should be read with the applicable Terms of Service, Programme Commercial Terms and Class & Rescheduling Policy.

2. Refund alternatives before cancellation

Before processing a cancellation or refund, Wisdatree may review whether the concern can reasonably be resolved through an alternative arrangement. Depending on the circumstances, options may include a change of teacher or schedule, a temporary programme pause, transfer to another eligible programme, transfer to an eligible immediate family member, an extension of validity, conversion of the eligible amount into Wisdatree Credit, or a combination of credit and monetary refund. Where the customer is legally entitled to a monetary refund, Wisdatree will not require the customer to accept credit instead.

3. Wisdatree Credit

Where the customer agrees, any eligible full or partial refund amount may be converted into Wisdatree Credit. Unless otherwise stated in writing, the credit will remain valid for 6 months from the date it is issued. It may be used, subject to programme availability and eligibility, toward continuation, renewal, additional classes, another eligible Wisdatree programme, approved workshops, or an approved immediate-family transfer. Promotional or complimentary credit has no cash value unless expressly stated otherwise.

4. Programme pause and transfer

Where cancellation is requested because of travel, school examinations, temporary scheduling difficulty, family circumstances or another short-term reason, Wisdatree may offer a programme pause instead of cancellation. Unused programme value may normally be protected for up to 6 months, subject to the programme terms. Restarting, teacher changes, schedule changes and programme transfers are subject to availability.

5. Partial refund and partial credit

Where only part of the unused programme value is refundable, Wisdatree and the customer may agree to divide the eligible amount between a monetary refund and Wisdatree Credit. For example, if the eligible unused value is USD 300, the parties may agree to USD 150 as refund and USD 150 as six-month Wisdatree Credit. Any mixed settlement will be confirmed before processing.

6. Refund eligibility and calculation

Refund eligibility depends on the reason for cancellation, classes or services already delivered, classes treated as utilised under the Class & Rescheduling Policy, promotional benefits already used, disclosed non-refundable components, and permitted non-recoverable third-party payment costs. Where applicable, the eligible refund is calculated as: Amount Paid – Value of Services Used – Applicable Non-refundable Components – Permitted Non-recoverable Third-party Payment Costs.

7. Wisdatree-caused cancellation

If Wisdatree permanently cancels a programme or is unable to deliver the purchased service and no mutually acceptable alternative is available, the customer will normally be eligible for a refund of the unused programme fee. No administrative cancellation deduction will normally be applied where the cancellation is attributable to Wisdatree.

8. Duplicate or excess payments

Where a customer accidentally makes a duplicate or excess payment, Wisdatree will first verify the transaction. Once verified, the customer may either retain the additional amount as Wisdatree Credit for up to 6 months and adjust it against future eligible fees, or request a refund. A genuine duplicate payment will not be subject to a programme cancellation penalty. Credit will not be forced in place of a requested refund for a verified duplicate payment.

9. Multi-currency payments and refund currency

Wisdatree may accept payments in INR and supported foreign currencies such as USD, SGD, AUD, AED, CAD or other currencies enabled by its authorised payment providers. Where technically possible, an approved refund will normally be processed against the original transaction and in the same transaction currency. An INR transaction made using an overseas card will ordinarily be refunded in INR.

10. Foreign-exchange differences

Exchange rates may change between the payment date and the refund date. The amount appearing in the customer's account may therefore differ because of exchange-rate movements, card-network conversion rates, bank spreads, foreign-transaction charges or other charges imposed independently by the customer's bank or payment provider. Such external differences do not create an additional refund liability for Wisdatree.

11. FX and payment-processing deductions

Wisdatree will not apply an arbitrary percentage deduction merely because a payment was made internationally. Where permitted, an actual and identifiable non-recoverable third-party payment cost may be deducted from a customer-initiated refund. This may include non-refundable payment-gateway charges, currency-conversion charges retained by the provider, international processing charges or bank-transfer charges. Such charges will not be deducted twice, and Wisdatree may waive them where the refund results from an error or cancellation attributable to Wisdatree.

12. Refund method and timeline

Refunds will normally be returned through the original payment route wherever technically possible. Once finally approved, Wisdatree will normally initiate the refund within 5–7 business days. The time taken for the amount to

reach the customer's account thereafter depends on the payment gateway, card issuer, bank and country. Where available, Wisdatree may provide a refund or transaction reference for tracing.

13. Refund request process

Customers should contact Wisdatree through an official support channel and provide the learner's name, registered parent/guardian details, programme name, invoice or receipt number, payment date, amount and currency, transaction ID where available, and the reason for the request. Customers should never provide a full card number, CVV, PIN or online-banking password.

14. Review and dispute workflow

Wisdatree will normally follow this sequence: (1) request registration, (2) resolution review, (3) refund assessment where cancellation continues, (4) customer confirmation of the final resolution, and (5) Accounts processing. If the customer disputes the outcome, the matter may be escalated to Customer Support review, then Accounts/Finance review, and finally Management/Grievance review.

15. Chargebacks and failed or pending payments

Customers are encouraged to contact Wisdatree before initiating a chargeback so the transaction can first be investigated. Where a formal chargeback is raised, Wisdatree may provide relevant enrolment, payment, attendance, service-delivery and communication records to the payment provider. A customer may not receive both a Wisdatree refund and a successful chargeback for the same amount. Wisdatree cannot refund funds that were never settled to or received by it.

16. Taxes, documents and governing terms

GST and other applicable tax adjustments relating to refunds will be handled in accordance with applicable law. Where required, Wisdatree may issue an appropriate credit note, revised invoice or other accounting document. This Policy is subject to applicable Indian law and any mandatory consumer-protection rights that apply to the transaction. Wisdatree may update this Policy to reflect changes in programmes, taxation, banking, payment-provider rules or applicable law.

Quick summary for international parents

We normally try to resolve the underlying issue before cancelling. If a refund is eligible, you may be offered a pause, transfer, six-month Wisdatree Credit, partial credit plus partial refund, or a monetary refund. Refunds are normally processed in the original transaction currency and through the original payment route. Bank-side FX differences and external charges remain outside Wisdatree's control.
