Class and Rescheduling Policy

Parent and Student Policy

Document owner	Operations and Customer Support
Version	1.0
Effective date	[DD Month YYYY]
Approved by	[Management or Board]
Review cycle	Annual or when operational requirements change

Purpose and Scope

This policy explains how Wisdatree manages regular class schedules, student absences, cancellations, substitute teachers, and make-up sessions. Its purpose is to protect learning continuity while maintaining fair teacher workloads and an efficient scheduling process for all families.

The policy applies to all Wisdatree students, parents or guardians, teachers, substitute teachers, Customer Support staff, and programme coordinators unless a written programme-specific term states otherwise. By enrolling in or continuing a Wisdatree programme, the parent or student agrees to follow this policy.

Rescheduling is limited flexibility for occasional unavoidable circumstances. It is not an alternative scheduling system and does not create a right to a preferred replacement date, time, teacher, or batch.

Quick Reference

Requirement	Once per week	Two or more classes per week
Monthly student reschedule limit	1 class	2 classes
Minimum advance notice	24 hours	24 hours
Completion deadline	Within 21 calendar days	Within 30 calendar days
Second reschedule of a make-up class	Not permitted	Not permitted
Unused allowance	Does not carry forward	Does not carry forward

Official channel: All requests must be sent to Wisdatree Customer Support through the designated WhatsApp number or scheduling system. A message to a teacher is not an approved reschedule.

Policy Administration

Control	Requirement
Request ownership	Customer Support records, validates and confirms every schedule change.
Teacher authority	Teachers must not independently promise reschedules, additional sessions, credits, refunds or fee adjustments.
Confirmation	A request is approved only after Customer Support sends written confirmation of the replacement arrangement.
Records	Wisdatree may retain attendance and scheduling records to administer this policy and resolve queries.

1 Regular Class Schedule

At enrolment, Wisdatree assigns a regular class day and time based on the selected programme, teacher availability, batch requirements, and the schedule accepted by the parent or student. The reserved slot remains the student's regular schedule unless Wisdatree confirms a permanent change in writing.

Students are expected to attend consistently. Frequent requests to change the regular timing may be declined or may require movement to another available teacher, batch, programme schedule, or time slot.

2 Classes Cancelled by Wisdatree or the Teacher

If Wisdatree or the assigned teacher cancels a scheduled class, Wisdatree will arrange one of the following, based on academic and operational suitability:

- A make-up class with the same teacher;
- A session with a qualified substitute teacher; or
- Another suitable learning arrangement communicated by Wisdatree.

A Wisdatree-initiated cancellation will not be counted against the student's monthly rescheduling limit. Wisdatree will make reasonable efforts to offer a suitable replacement arrangement, but cannot guarantee the family's preferred date or time.

3 Substitute Teachers

Wisdatree may appoint a qualified substitute teacher because of teacher leave, emergencies, training, academic planning, operational requirements, or other reasonable circumstances. Substitute teachers follow the approved curriculum, lesson plan, teaching standards, and available student progress records.

A teacher substitution does not, by itself, qualify the student for a cancellation, refund, credit, or further rescheduling.

4 Student Initiated Rescheduling Limits

A parent or student may request rescheduling only within these calendar-month limits:

- Programmes with one class per week: a maximum of 1 rescheduled class per calendar month.
- Programmes with two or more classes per week: a maximum of 2 rescheduled classes per calendar month.

The allowance applies regardless of the reason for absence unless Wisdatree management approves an exception under Section 16. Unused rescheduling opportunities do not accumulate and cannot be carried into another month, exchanged for credits, or transferred to another student.

5 Minimum Notice and Request Process

The rescheduling request must reach the designated Wisdatree Customer Support channel at least 24 hours before the scheduled class time. The request should identify the student, programme, original class date and time, and reason for the request.

Submitting a request does not reserve or confirm a replacement class. Customer Support will confirm whether the request is within policy and will offer available make-up options when applicable. Only a written confirmation from Customer Support constitutes approval.

A message or verbal discussion with the teacher does not constitute an approved reschedule. Teachers must direct schedule-change requests to Customer Support.

6 Late Cancellations No Shows and Late Arrival

The class will be recorded as completed for attendance and billing purposes, and will not be eligible for rescheduling, when any of the following occurs:

- Cancellation or notice is received less than 24 hours before the class;
- Notice is received after the class has started;
- The student is absent without prior notice;
- The student joins so late that the planned session cannot reasonably be completed; or
- A device, internet, platform-access, power, audio, or video issue at the student's end prevents participation.

The teacher is not required to extend the session beyond its scheduled end time because of late arrival.

7 Availability of Make Up Classes

All make-up classes are subject to teacher availability, established make-up slots, existing class commitments, batch suitability, academic needs, and Wisdatree's operational capacity. Customer Support may provide one or more available options from which the parent or student can select.

Wisdatree does not guarantee a preferred date, time, teacher, or one-to-one format. Teachers are not required to extend working hours, cancel another student's confirmed class, or create a new slot outside the make-up availability approved by Wisdatree.

8 Completion Deadline for Make Up Classes

An approved replacement class must be completed within the following period measured from the original class date:

- Programmes with one class per week: within 21 calendar days.
- Programmes with two or more classes per week: within 30 calendar days.

If the parent or student does not select an offered slot, declines reasonable available options, or does not attend within the applicable period, the class expires. An expired class cannot be carried forward, refunded, converted into credit, adjusted against future fees, or added to the end of the programme.

9 A Make Up Class Cannot Be Rescheduled Again

Once a make-up class is confirmed, it cannot be rescheduled a second time. If the student does not attend the confirmed make-up class, the session is treated as completed and expires, even when advance notice is provided for the second cancellation. Only an extraordinary circumstance approved under Section 16 may be considered as an exception.

10 Repeated Rescheduling and Misuse

Rescheduling is intended for occasional unavoidable situations. Where requests become frequent, disruptive, inconsistent with the agreed timetable, or burdensome to teacher and support operations, Wisdatree may take one or more of the following actions:

- Decline requests beyond the stated allowance;
- Require the family to continue with the confirmed regular schedule;
- Recommend or require a permanent schedule change;
- Move the student to another available teacher, batch, or programme schedule;
- Temporarily or permanently withdraw rescheduling privileges; or
- Review whether the existing class arrangement can continue.

These measures may be applied when repeated changes affect learning continuity, teacher workload, confirmed classes of other students, or the reasonable operation of Customer Support.

11 Permanent Schedule Changes

A request to change the regular class day or time is a permanent schedule-change request, not a one-time reschedule. It must be submitted to Customer Support and remains subject to programme, teacher, batch, and slot availability.

Wisdatree cannot guarantee that the existing teacher, fee arrangement, class format, or preferred time will remain available after a permanent change. A new timing becomes effective only after written confirmation from Wisdatree.

12 Wisdatree Holidays and Public Holidays

Wisdatree will communicate scheduled holidays wherever applicable. Classes falling on an officially declared Wisdatree holiday may not always be replaced individually, particularly when the programme follows a monthly fee model and the academic calendar already accounts for months with additional weeks or sessions.

Where Wisdatree decides to provide a replacement session or alternative arrangement, the details will be communicated in advance. A personal holiday observed by the family but not declared by Wisdatree remains subject to the normal student rescheduling limits.

13 Travel Vacations and Personal Commitments

Family travel, vacations, school events, examinations, functions, extracurricular activities, and similar personal commitments remain subject to the standard monthly limits and notice requirements. Families should plan these commitments around the regular Wisdatree schedule wherever reasonably possible.

Classes cannot ordinarily be accumulated for later use because of travel or vacation. For an extended planned absence, the parent should contact Customer Support before making commitments to discuss any options available under the relevant programme. An enquiry does not guarantee that classes can be paused, carried forward, credited, or replaced.

14 Communication and Teacher Authority

All schedule changes must be recorded and confirmed through Wisdatree Customer Support or the official scheduling system. Teachers must not independently promise replacement classes, additional teaching time, alternative timings, refunds, credits, or fee adjustments.

A teacher may share availability with Wisdatree for internal scheduling, but Customer Support remains responsible for confirming the final arrangement with the parent or student.

15 Technical Difficulties

Students are responsible for maintaining a stable internet connection, suitable device, functioning audio and video, required learning materials, and access to the designated platform before the class begins. Technical problems at the student's end normally do not qualify for a make-up class.

If a material disruption is caused by Wisdatree's platform, the teacher's connectivity, or another issue under Wisdatree's control and the class cannot be meaningfully conducted, Wisdatree may arrange an appropriate replacement after reviewing the circumstances.

16 Exceptional Circumstances

Wisdatree may review serious medical emergencies, bereavement, or other extraordinary events individually. The parent or student should notify Customer Support as soon as reasonably possible and provide supporting information if requested.

Any exception is discretionary, applies only to the specific incident, and does not create a precedent or entitlement for future requests. Operational inconvenience, routine travel, school work, forgotten appointments, or preference changes will not ordinarily be treated as exceptional circumstances.

17 Fees Credits and Refunds

Programme fees reserve the student's scheduled learning slot, teacher allocation, curriculum access, and related academic and operational capacity. A class missed because of student absence does not qualify for a fee reduction, refund, credit, transfer, adjustment against a later month, or programme extension unless Wisdatree expressly confirms otherwise in writing.

18 Final Scheduling Authority

Wisdatree retains final authority to make reasonable scheduling decisions required to maintain academic quality, fairness, teacher workload, student safety, and operational efficiency. When several requests compete for limited availability, the options offered and the final arrangement confirmed by Wisdatree will apply, subject to applicable law.

Parent and Student Responsibilities

By enrolling with Wisdatree, the parent or student agrees to:

- Attend classes according to the confirmed regular schedule;
- Use rescheduling only when genuinely necessary;
- Send requests through the official Customer Support channel;
- Provide at least 24 hours' notice;
- Remain within the applicable monthly allowance;
- Select from the make-up options Wisdatree is able to offer;
- Attend the confirmed make-up class and complete it within the deadline; and
- Understand that repeated personal changes cannot be accommodated at the expense of teachers, other students, or support operations.

Acknowledgement

I confirm that I have read and understood the Wisdatree Class and Rescheduling Policy. I understand that rescheduling is limited, subject to availability, and valid only after written confirmation from Wisdatree Customer Support. I agree to follow the confirmed schedule and the requirements stated in this policy.
